

## 3 Steps for an Online Estimate

### Step 1

#### Photographs

We need to understand your fireplace through photographs. Please send us photos of your fireplace – close up and at a distance – plus an external shot of your house showing the chimney (if you have one)

### Step 2

#### Measurements

Take measurements of your fireplace opening – width, height and depth plus the chimney breast width and depth (this is sometimes located on the outside wall).

### Step 3

#### Your Dream Fireplace

If you have an idea of what you would like your new fireplace to look like send us a picture – the more we know the better.

If you have a preference to the finish – beam, stone surround, granite, slate, or marble hearth ... let us know.

---

We will send you an estimate of costings for your installation. If these prices meet with your budget and you wish to proceed to a full written quotation, we will first arrange a full site survey. Please contact us to make an appointment.

Please email this information to [sales@surreywoodburners.co.uk](mailto:sales@surreywoodburners.co.uk)
